

The community belongs inside the ownership.

A \$1 billion equity-value illustration. Existing owners sell 1% tranches at a negotiated discount, up to 10%. Protected community governance is negotiated separately.

PROJECT COMPANY / ALL-EQUITY ILLUSTRATION

\$1,000,000,000

CAPITAL INVESTORS

90% / \$900m value

Retained equity; sellers receive purchase cash

COMMUNITY ENTITY

10% / \$100m value

At 50% discount: \$50m community purchase

Investors fund \$1bn. Community purchases pay selling owners.

THE REGENERATIVE LOOP

- 01 Community directs benefits
Training, care, affordability and places to play.
- 02 Local capacity improves
Test staffing, reliability, trust and operating costs.
- 03 Project value can grow
Verify net gains. Share distributions and realizable value.
- 04 Capital keeps working
Preserve ownership or reinvest proceeds for generations.

20-YEAR 10% OWNERSHIP SENSITIVITY / NOT A FORECAST

\$99.20m cash paid; \$252.70m unrealized stake value

Base: NOI \$65m less \$35m assumed post-NOI deductions; community cash \$3m. 20-year case: NOI and deductions grow 5% after year 1; 6.5% cap rate; 10% stake. A 1.5-3x resale multiple within three years is a target scenario, not assured liquidity. Resale price, costs and buyers matter.

Tell us about your project. Let's have a deep conversation.
